About Us...

Athena Consulting Group, LLC (ACG) is a certified Veteran Owned Small Business (VOSB) under \$7M, founded in 2004, providing expert level support in (1) Information Assurance / Cybersecurity (2) Information Systems Engineering, Administration and Support and (3) DIARMF Portfolio, Program, and Project Management. Over the past thirteen years, ACG has served customers including the US Navy (SPAWAR), Defense Health Agency (DHA), US Marine Corps, and the State of West Virginia Children's Health Insurance Program. ACG staff members are independent experts and leaders in their fields of expertise. ACG has authored numerous leading documents for its customers; to include the Navy Medicine Perimeter Protection Plan, the Navy's Unclassified Trusted Network Protection (UTNProtect) Policy and the DISA Medical Devices Security Technical Implementation Guide (STIG). ACG team members lead or contribute to several Navy Medicine / SPAWAR / DHA Enterprise Cybersecurity program activities, including the DHMSM / MHS Genesis Implementation Cybersecurity team, PPSM / CERT Systems Support team, Enterprise Services Operations Center (ESOC) team, Computer Network Defense Service Provider (CNDSP) Team, Mitigation and Remediation Support (MARS) team, Navy Medicine Directives Verification and Validation (DV&V) team, Enterprise Information Assurance Systems Support Function (including Tiger Team), and the Continuous Risk Management team.

ACG is a partner on the team responsible for the implementation of the DoD Electronic Healthcare Records Management System (DHMSM), a minimum ten year, \$4B effort for the Defense Health Agency. Our personnel supporting Navy Medicine at SPAWAR have performed Certification & Accreditation (C&A) support, mitigation and remediation support, Independent Verification and Validation (IV&V), Security Test & Evaluations (ST&E), router analysis, intrusion prevention system support, firewall analysis, risk management, networking technology design and integration, and Information Assurance Vulnerability Management (IAVM) activities. We also support the SPAWAR Systems Center Atlantic / DHA CNDSP team.

ACG is a partner on the US Navy Global Installation Contract with M.C. Dean, providing technical support to US Navy installations across a broad range of IT products and systems. ACG performed IV&V Testing, In Service Engineering Activity (ISEA), & Information Assurance (IA)/ C&A functionalities for ARC implementation & support aboard US Navy DDG-108, DDG-109 & CVN-77 platforms, provided ARC ISEA full life-cycle support, including LAN/WAN administration / maintenance (CTO, IAVM, Help Desk, etc), modification/testing & installation/QA, developed and executed DR/COOP recovery exercises, provided training, & prepared test procedures/plans/TEMPs.

Our DHA ST&E team developed an in house tool, AVENGR / CART, for rapid FISMA/DIACAP/DIARMF/A&A compliant Plans of Actions and Milestones (POA&M) generation and update that has saved thousands of man hours for our clients. ACG has a DCAA approved accounting system, a Top Secret facility clearance, is certified as a Corporate Fully Qualified Navy Validator (FQNV) by the Office of Navy Certifying Authority and is a member of the Amazon Web Ser-
